

PATIENT CARD

Pr ZYNYZ® (retifanlimab)

IMPORTANT SAFETY INFORMATION TO MINIMIZE THE RISK OF IMMUNE- MEDIATED ADVERSE REACTIONS

This medicine may cause serious side effects, which can sometimes become life-threatening and lead to death. These may happen any time during treatment or even after your treatment has ended. You may experience more than one side effect at the same time.

Contact your doctor right away if you develop any signs or symptoms, including those not listed on this card. Your doctor may give you other medicines in order to prevent more severe complications and reduce your symptoms. Your doctor may withhold the next dose of ZYNYZ® or stop treatment.

This material was developed by Incyte Biosciences Canada Corporation as part of a risk minimization plan for ZYNYZ®. This material is not intended for promotional use.

Pr
ZYNYZ[®]
retifanlimab for injection
500 mg / 20 mL (25 mg / mL)

IMPORTANT

- Do not attempt to treat side effects yourself
- Do not stop your treatment with ZYNYZ® unless you have discussed this with your doctor
- Carry this card with you at all times, especially when you are traveling, every time you go to the emergency room or when you need to see another doctor
- Carry this card for at least 4 months after the last dose of ZYNYZ®
- This includes any possible side effects not listed in this card. You can also report side effects directly by visiting www.canada.ca/en/health-canada/services/drugs-health-products/medeffect-canada.html or calling toll-free at 1-866-234-2345. Reporting side effects may help provide more information about the safety of this medicine.

IMPORTANT INFORMATION FOR HEALTHCARE PROVIDERS

This patient is being treated with ZYNYZ® (retifanlimab), which can cause immune-mediated adverse reactions that may appear any time during treatment or even after treatment. Assess patients for signs and symptoms of immune-mediated adverse reactions. Early diagnosis and appropriate management are essential to minimize any consequences of immune-mediated adverse reactions.

Specific guidelines for managing immune-mediated adverse reactions are available in the Product Monograph for retifanlimab.

Consultation with an oncologist or other medical specialist may be helpful for management of organ specific immune-mediated adverse reactions.

For more information, please see the
Product Monograph at pdf.hres.ca/dpd_pm/00078531.PDF
or call Incyte at **1-833-309-2759**.
